

The Chesapeake Clinic

Need to see a dentist or have your blood pressure checked? If so, the Chesapeake Clinic offers many specialized services right on our campus. In addition to visiting physicians providing primary medical care, podiatry, dental, and audiology services, rehabilitation staff including physical, occupational, and speech therapists are also located in the clinic.

Services include:

- ≈ 24 hour emergency response
- ≈ Nursing assessments & triage
- ≈ Laboratory services; injections; ear irrigations
- ≈ Blood glucose, blood pressure checks, & pacemaker checks
- ≈ Medication management; filling & refilling pill boxes
- ≈ Transportation to local physician offices
- ≈ Wound care; suture or staple removal
- ≈ Emergency first aid
- ≈ Meal delivery due to illness
- ≈ Home care companion services*
- ≈ Case management services*

Some of the services provided in the clinic require a physician's order and have fees associated with them. The clinic staff is happy to advise if services may be covered under Medicare Part B.
